GreyNet's Open Data Project 2026

data

In 2026, GreyNet strives to make all of its twenty plus information resources openly accessible for purposes of referencing, citation, and reuse. Some of these resources will entail DOI minting or the assignment of other identifiers, the addition of metadata, and the designation of URLS and/or landing pages. Past and present associate members and collaborative partners are invited to incorporate - in whole or in part - these resources in their own information systems. https://www.greynet.org/researchandeducation/opendataproject.html
