

GreyNet International Award Recipient 2025

Dr. Donatella Castelli
GreyNet International Award Recipient 2025

Donatella Castelli has in a multitude of ways been involved with GreyNet International from 2005-2025. Under her direction, numerous conference papers and posters have been composed, presented, and published in the International Conference Series on Grey Literature. As Head of the “InfraScience” Lab, her support in the research carried out by colleagues and staff in the field of grey literature remains openly accessible for citation, referencing, and reuse. Donatella was instrumental in the launch and development of the GreyGuide Portal and Repository. And, she was host at CNR Pisa to two workshops dealing with grey literature in the areas of policy development and open data. Her contribution to the PISA 2025 Conference marks a new direction in joint conferencing for GreyNet International.

KISTI-GreyNet Research Project Participants

PISA 2025 provided an opportunity for those involved in the collaborative research project on ‘Global information Repository Research for STI Development’ to finally meet onsite: SeokJong Lim, (KISTI); Margret Plank, (TIB Hannover); Dominic Farace, (GreyNet International); Tamsin Vicary, (ASFA-FAO); and Jayhoon Kim, (KISTI).

PISA 2025 Conference Poster Prize Winner

The winning conference poster out of 14 entries is entitled “Beyond the Tip of the Iceberg: Grey Literature in the Study and Protection of Northern Tuscany's Archaeological Records”. It was produced by Francesco D’Antoni from the Sapienza Università di Roma. The prize was presented by Biagio Peccerillo, one of the three poster judges from ISTI-CNR in Pisa.
