GreyNet International Business Report

TextRelease / Grey Literature Network Service

ISSN 2542-4572

This business report is intended to provide a comprehensive, up to date overview of the workings of TextRelease and the International Grey Literature Network Service. TextRelease is an independent program and conference bureau specializing in the field of grey literature and networked information.

GreyNet, Grey Literature Network Service, was founded in 1992 and re-launched in 2003 under the leadership and direction of TextRelease. Since its re-launch, it has developed into an international network capable of serving various sectors of government, academics, business and industry as well as subject based communities producing, processing, distributing, and preserving grey literature. GreyNet's mission is dedicated to research, publication, open access, education, and public awareness to grey literature, which requires now more than ever an infrastructure commensurate to its real potential.

In order to further expand and develop future capabilities for the international Grey Literature Network Service, an infrastructure other than that of a sole proprietorship is recommended. While TextRelease provided a basis for GreyNet's re-launch, it alone cannot render the needed capital and investment for GreyNet's potential to develop and expand on the global information landscape. The ideal organization would be focused internationally and have genuine interest in the field of grey literature both in digital and print formats.

GreyNet might do well to model upon an infrastructure of that of an international association or to merge with a major partner seeking to enhance its position on the information landscape. In either case, TextRelease will strive to cooperate with leading organizations in the further development of GreyNet International. More on this and other developments are found in this Business Report.

Dominic Farace, Director

Leadership in the field of Grey Literature

*Dominic Farace,
Director 1992- ...*

*Jerry Frantzen,
Technical Assistant 1996- ...*

Dr. Dominic Farace, Founder/Director GreyNet, Grey Literature Network Service since 1992.

In the above capacity, he is author, journal editor, guest lecturer, part-time instructor, and curriculum developer in the field of grey literature. Farace is also a recipient of the Golden Candle Award in 2000 for his work in the field of grey literature as well as the Victorine van Schaick Prize in 2008 for The Grey Journal.

GreyNet Associate and Institutional Members 2017

GreyNet provides two levels of organizational membership: **Associate** and **Institutional**. The Associate Members together constitute GreyNet's corporate authorship, which is tasked with capturing various types of information including factual, bibliographic, biographic, documentary and full-text along with accompanying metadata, research data, and post-publication data issuing from the annual Conference Series on Grey Literature as well as related workshops in this field of information. This body of textual and non-textual content is then further compiled, edited, and published in a number of serial works. A third type of membership, which is offered to individuals, resembles more a subscription to GreyNet's range of products and services.

In providing an infrastructure commensurate to its mission and core activities, GreyNet is supported by four working committees. Together they advance GreyNet's manifold mission dedicated to research, publication, open access, education, and public awareness to grey literature

TextRelease

Products, Services, and Professional Activities

As Program and Conference Bureau, the main activities of TextRelease include the identification and negotiation with potential conference hosts for the annual conference venues and the identification and acquisition of conference sponsors and advertisers. The formation of Program Committees and Chairpersons along with the initial draft of conference themes incorporated in the announcements and call-for-papers. TextRelease maintains contact with authors throughout the lead-up to the conference providing them with guidelines for their content submissions and informing them of their status on the conference program. TextRelease is further responsible for the design, compilation, editing, and publication of conference materials and documents issuing from the Conference Series. Foremost among these are the conference site, newsletters, program books, and conference proceedings.

6

International Conference Series on Grey Literature, 1993-2017

The GL Conference Series began as a biannual event in the early '90s, however with its relaunch in 2003, the conference series rose to an annual event. The GL Conference Series maintains a transatlantic character alternating between Europe and North America. However, participants from recognized organizations worldwide actively sponsor and participate.

GreyNet's Open Access Resources and Service Providers

Over 360 metadata records originating in the GL Conference Series including their corresponding full-text papers, PowerPoint slides, abstracts, biographical notes, and post-publication commentaries are available via the OpenGrey Repository <http://www.opengrey.eu>. This web-based resource has become a significant reference tool for GreyNet's own referral service. In 2007, GreyNet (data provider) signed an agreement with INIST (service provider) in which all of its past and

future collections of conference preprints would be openly accessible in the OpenGrey Repository (formerly OpenSIGLE). In 2009, GreyNet purchased back the rights to content from its first four conference proceedings (1994-2000), making these also openly accessible and thus guaranteeing that its collections would be comprehensive.

Agreement has been reached between OpenGrey and OpenAIRE, whereby GreyNet's Collection of Conference Preprints in the OpenGrey Repository are now harvested and accessible in OpenAIRE via its Discovery services.

GreyNet completed the second phase of an Enhanced Publications Project (EPP) in which research data accompanying conference preprints are entered in the DANS Data Archive and cross-linked to metadata records in the OpenGrey Repository. Since the project's completion in 2012, research data accompanying conference preprints in the GL-Series are requested as an integral part of the annual call-for-papers and is now embedded in GreyNet's workflow. GreyNet currently has 30 research datasets in DANS. More on this project at www.greynet.org/opengreyrepository/enhancedpublications.html.

The Repository and Guide to Good Practices and Resources in Grey Literature <http://greyguide.isti.cnr.it/> offers information professionals, practitioners and students shared common ground in the field of grey literature. The GreyGuide is a portal and repository of good practices and resources focusing on both the supply and demand sides of grey literature. This is a collaborative project involving GreyNet International and ISTI-CNR Pisa, Italy.

WorldWideScience.org is a global science gateway comprised of national and international scientific databases and portals among which now include the **GreyGuide**, **OpenAIRE**, **OpenGrey**, and **DANS** via NARCIS. WorldWideScience.org accelerates scientific discovery and progress by providing one-stop searching of databases from around the world. Multilingual WorldWideScience.org provides real-time searching and translation of globally-dispersed multilingual scientific literature.

The GreyGuide is GreyNet's Web Access Portal

The GreyGuide portal redefines GreyNet's position on the information landscape

In early 2014, GreyNet reached agreement with the National Research Center in Pisa, the service provider for the GreyGuide Repository. GreyNet collections and content that as yet were only accessible either via its website or allied conference site are in the process of migrating to the GreyGuide Repository. As such, the GreyGuide now functions as GreyNet's web access portal. This allows for combined search, browse, and retrieval capability across collections - where standardized metadata and full-text can be harvested online. Alongside good practices in the GreyGuide, GreyNet's in-house collections of persons and organizations in the field of grey literature, as well as projects, conference proposals, tables of content, and other web-based resources in grey literature are now openly accessible via the GreyGuide. To date, these collections include

The Pisa Declaration on Policy Development for Grey Literature Resources

In April 2014, information professionals from prominent European academic and research centers met in Pisa to address issues dealing with the policy and management of grey literature resources. This meeting resulted in the formulation of the Pisa Declaration on Policy Development for Grey Literature Resources – a fifteen point roadmap, which serves as a guide for organizations

involved in the production, publication, access and use of grey literature well into the 21st Century. The Pisa Declaration much like the Budapest, Bethesda, and Berlin Declarations are neither inventions of the mind nor improvements in doing the same things better – instead, they offer a different approach in dealing with information and data to meet the market needs and requirements of today. Until now, the problem was the lack of cooperation and coordination between and among organizations dealing with grey literature. However, the time of going it alone is now ended. The Pisa Declaration marks the close of an era of *ad hoc* policy and decision making with regard to grey literature resources. Since its original publication in English, the Pisa Declaration has been endorsed by over 140 information professionals from renowned organizations worldwide and has now been translated into 20 languages: Armenian, Bulgarian, Croatian, Czech, Dutch, French, German, Greek, Hindi, Hungarian, Italian, Japanese, Korean, Macedonian, Russian, Serbian, Slovak, Spanish, Tagalog, and Turkish.

Conference based Projects on Grey Literature, 1993-2000

Since the initial launch of the GL-Conference Series, GreyNet in collaboration with its pool of authors compiled and edited four information resources. And since its relaunch in 2003, GreyNet annually carries out research projects beneficial to stakeholders in the international grey literature community.

1993 - 2000 Bibliographic Database on the Topic of Grey Literature

GreyNet Annual Award for Outstanding Achievement in Grey Literature

Since 1999, GreyNet has issued an award in recognition for an author(s) contribution to the field of grey literature. Nominations for the GreyNet Award are based on a number of criteria (1) Results from conference evaluation forms, (2) Publication of the authors' full-text paper in the official Conference Proceedings, (3) Selection and publication of the authors work as a journal article, thus exporting and distributing research results originating in the Conference Series, and (4) Prior history of the author and/or author's organization in the field of grey literature. The recipient may also be an information professional, whose significant contributions over the years has sustained the growth and development of GreyNet International.

GreyNet Award Recipients 1999 - 2017

- 1999** Julia Gelfand, University of California Irvine, USA
Awarded for her work as journal editor on grey literature.
- 2000** Daniela Luzi, National Research Centre, Italy
Awarded for her methodological approaches to grey literature.

- 2004** Bertrum MacDonald, Dalhousie University, Canada
Awarded for his study on the marine science community and grey literature.
- 2005** Keith Jeffrey, CCLRC U.K. and Anne Asserson, University of Bergen, Norway
Awarded for their work on CRIS systems for grey literature.
- 2006** Marcus Banks, New York University School of Medicine, USA
Awarded for his work on open access to grey literature.
- 2007** Todd A. Chavez [et al.], University of South Florida, USA
Awarded for his research on the Karst community and grey literature.
- 2008** Anne Gentil-Beccot, CERN, Switzerland
Awarded for her research on the physics community and grey literature.
- 2009** Debbie Rabina, Pratt Institute's School of Information and Library Science, USA
Awarded for her research on copyright licenses and legal deposit of grey literature.
- 2010** Joachim Schöpfel, University of Lille, France
Award presented for his extensive research and publications on grey literature.
- 2010** Christiane Stock, Inist-CNRS, France
Award presented for her work and publication on the OpenSIGLE Repository
- 2011** Bonnie C. Carroll and June Crowe, Information International Associates, Inc. USA
Awards presented for their work on scientific data in grey literature and NGOs.
- 2012** Petra Pejřová, National Technical Library, Prague, Czech Republic
Award presented for her research and management skills in the field of grey literature
- 2013** Marcus Vaska, Knowledge Resource Service; University of Calgary, Canada
Award presented for his extended research in raising awareness of grey literature.
- 2014** Kiyoshi Ikeda, Intellectual Resources Department, Japan Atomic Energy Agency, JAEA
Award for his work in collecting, organizing, and disseminating data and information on nuclear accidents and in particular the Fukushima Daiichi Nuclear Power Station Accident.

- 2015** Marnix van Berchum, Data Archiving and Networked Services, DANS-KNAW, Netherlands
Award presented for the technical support as service provider for GreyNet's research data issuing from the International Conference Series on Grey Literature.
- 2015** Stefania Biagioni, Institute of Information Science and Technologies, ISTI-CNR, Italy
Award presented for the development and maintenance of the GreyGuide Repository and Web Access Portal for GreyNet's Collections and Resources.
- 2016** Blane K. Dessy, Library of Congress, Washington D.C., USA
Award presented in recognition for sustained support enabling research and development in the field of grey literature.
- 2017** Dobrica Savić, Nuclear Information Section; International Atomic Energy Agency, Austria
Award for his leading role in drafting, promoting, and assessing the 'Pisa Declaration on Policy Development for Grey Literature Resources'. (*Presentation in Rome on 22 October 2017*)

Educational and Training Initiatives in Grey Literature

Course modules and training are available not only to instructors and students at Schools and Colleges of Library and Information Science, but also to professionals and practitioners working to serve their knowledge based communities. Through the years, GreyNet has taken an active role in curriculum development and instruction. Such initiatives include:

Workshops and Seminars

Introduction to Grey Literature, Supply and Demand Side Grey, Strategies and Future Trends, etc.

Distance Education Program 2007-2009

Undergraduate Accredited Course on Grey Literature via the University of New Orleans, USA

Guest Lecture Series 2004-2008

Lectures on Grey Literature for Masters Students at the University of Amsterdam, Netherlands

Presentations at Meetings and Events

Invited Papers and Presentations on topics related to Grey Literature

GreyNet's Sustained mix of Income and Open Sources

Financial Indicators

Since its relaunch in 2003, GreyNet has increased and diversified its sources of revenue. Where it initially was dependent almost solely on participant fees issuing from the international conference series, it has since increased revenues issuing from membership fees, sponsorship fees, advertising, the sale of publications, journal licensing, royalties, as well as educational and training activities. In 2016, membership and sponsorship fees accounted for 50% of the revenues, conference and workshops fees accounted for 34%, and publication fees were 15%. Together, these three sources of revenue accounted for 99% of GreyNet's gross income. The remaining 1% of the income was acquired via other administrative services.

As seen in the chart above, revenues issuing directly from conference fees have considerably decreased over the years, while the number of conference participants has not. This can be accounted for by the fact that GreyNet has acquired more organizational members as well as conference sponsors. Their paid membership and sponsorship fees entitles them to participation in the conferences. Another factor that explains the decrease in conference revenues are the reductions now offered to authors, students, and employees of host organizations.

Gross Revenues per annum averaged over the last 3 years € 40,660

17

2008	2009	2010	2011	2012	2013	2014	2015	2016
€43,713	€46,304	€40,900	€41,164	€45,803	€40,189	€41,578	€41,690	€38,712

These figures are based on direct revenues, while other indirect revenues also have to be taken into consideration. For example, a conference host that provides the location, equipment, and catering for the annual event circumvents costs to the Program and Conference Bureau. A sponsor for a social event linked to a conference is yet another example of indirect or non-accounted revenues without which TextRelease/GreyNet would be unable to meet its operating costs.

Operating Costs

Direct and indirect costs associated with TextRelease and its Grey Literature Network Service include human resources, office maintenance, travel and lodging (related to site visits, conferences, workshops, committee meetings and other field work), conference materials and publications, as well as special events (annual award dinner, social programs, reception, conference tours, etc.). An overview of such expenditures are provided in the table below.

Human Resources	Office Maintenance	Travel and Lodging	Conferencing and Publications
Full time Director	Office Supplies & Equipment	Hotels	Pouches
Freelance Technician	Utilities	Airfare	Badges
Project Workers	Print/Publishing	Trains	Program books
Accountant	Telecom	Auto rentals	Newsletters
Notary of the Public	Insurances	Taxis	Proceedings
Tax Consultant	Taxes	Gas	Journal
	Chamber of Commerce	Public transit	Websites
	Bank and Credit Cards	Meals	Course Materials
	Web services		Promotional items

GreyNet Statistics *(As of December 2016)*

The statistics provided here are from a number of sources including Network Solutions Web logs, EBSCO licensed publishing, GreyNet Service Providers, as well as in-house administrative files.

11	GreyNet Organizational Members
40	Countries with GreyNet affiliate contacts
280	Organizational contacts worldwide
360	Contributing Authors/Researchers
1000	GreyNet Distribution List (e.g. Newsletter recipients)
175	GreyNet Listserv subscribers
690	GreyNet LinkedIn members
1285	GreyNet Twitter Followers
98	Facebook Friends
2820	Email correspondence in 2016
363	Full-text metadata records in the OpenGrey Repository
25	Research Datasets in the DANS Archive
538	Metadata records in the GreyGuide Repository
265,993	Page views in the GreyGuide Repository 2016
44,514	Page views to GreyNet.org website in 2016
14,576	Page views to TextRelease.com conference site in 2016
2457	TGJ full-text article downloads from the EBSCO LISTA-FT database in 2016

SWOT Analysis

Strengths

Leadership role, an established and recognized international information network, GreyNet as Brand Name, Corporate Memory, Partnerships and Agreements, Good Will, Commitment to Open Access, Twenty Five years expertise in the field of grey literature, Sustained information resources, and a track record of before and after sales delivery and service, Established banking and fiscal control.

Weaknesses

ICT issues such as website functionality including graphic design, online ordering, use/user statistics and their analyses, underdeveloped marketing, sales, and promotional activities. Insufficient reserves for further investment. A sole proprietorship seen as an obstacle to potential membership. Insufficient presence at key national and international conferences where grey literature is either directly or indirectly related to the themes and programs.

Opportunities

Further role in training and education, as well as research and (digital) publication. Ability to upgrade, enhance, and leverage existing products and services. Increased potential for sponsorship. Better access to funding and grants. Streamlining the workflow through outsourcing. Further cooperation with the open access community as well as further cooperation with commercial publishers and licensing agents. More use of available social media and networks.

Threats

Continuity, inability to respond to growth leading to missed opportunities, infrastructure's command of the ever changing information landscape, an uncertain financial climate.
