GL25 Conference Announcement

Twenty-Fifth International Conference on Grey Literature

'Confronting Climate Change with Trusted Grey Resources'

With over a quarter century of research on grey literature carried out by diverse communities of practice in this field of information, a collective challenge emerges. Researchers and authors in sectors of government, non-government, academics, and business spanning manifold disciplines in science, technology, and the humanities are called to action. Their years of work dealing with the production, processing, digital publication, open access, and preservation of research outputs in multiple formats is called upon in confronting climate change.

At this point in time, with the advancements in information technology available to grey literature and in accordance with FAIR data principles, researchers, authors, librarians, and other information professionals and practitioners are tasked to ensure that research outputs are findable, accessible, interoperable, and render potential reuse in furthering research and education in their respective disciplines and sectors of information. GL25 seeks to accept this challenge. To this end, grey literature communities worldwide are called upon to direct their attention in responding to climate change for the benefit of our vulnerable planet. **https://textrelease.com/gl25conference.html**

GreyNet's Quarterly Newsletter

Now in its 15th Volume on the Frontline of Grey Literature

This serial publication endeavors to keep information professionals abreast of developments in the field of grey literature. The quarterly newsletter gives exposure to GreyNet's information resources and frontline activities with special emphasis on the International Conference Series on Grey Literature. The GreyNet Newsletter is licensed by EBSCO Publishing. This serial publication is made possible through the support of GreyNet's Associate Members:

NLM-NIH (USA), CVTISR (Slovakia), ISTI-CNR, (Italy), Nuclear Information Section, IAEA (UN), University of Florida (USA), EBSCO Publishing (USA), National Library of Technology (Czech Republic), KISTI (Korea), TIB Hannover (Germany), Figshare (UK). **https://greynet.org/newsletter.html**

Twenty-Fifth International Conference on Grey Literature

'Confronting Climate Change with Trusted Grey Resources'

OBA Forum • November 13-14, 2023
Oosterdokskade, Amsterdam, Netherlands

Call for Papers

Title of Paper:	**Conference Topic(s):**
Author Name(s):	**Phone:**
Organization(s):	**Email:**
Postal Address:	**URL:**
Postal Code – City:	**Country:**

Guidelines for Abstracts

Participants who seek to present a paper dealing with grey literature are invited to submit an English language abstract between 300-400 words. The abstract should address the problem/goal, the research method/procedure, an indication of costs related to the project, as well as the anticipated results of the research. The abstract should likewise include the title of the proposed paper, conference topic(s) most suited to the paper, name(s) of the author(s), and full address information. Abstracts are the only tangible source that allows the Program Committee to guarantee the content and balance in the conference program. Every effort should be made to reflect the content of your work in the abstract submitted. Abstracts not in compliance with the guidelines will be returned to the author for revision.

Related Conference Topics

Climate Change • Sea Level and Coastal Environment • Fresh Water Resources • Fisheries and Aquaculture • Ecosystems • Biodiversity • Agriculture • Crops and Livestock • Food Production and Consumption • Weather Conditions • Natural Disasters • Public Health • Urbanization • Transportation • Greenhouse Gas Emissions • Energy Supply and Use • Solar Radiation • National Security • Social Policies • Climate Risks • Climate Strategies • Prioritizing Change • Climate Research • Sustainable Development • Capacity Building • Climate Science • Social Divide • Cultural Change • Vulnerable Populations • Ethical Issues • Climate Justice • Global Governance • Political Will • Etcetera

Due Date and Format for Submission

Abstracts in MS Word must be emailed to conference@textrelease.com on or before March 31st 2023. The author will receive verification upon its receipt. Shortly after the Program Committee meets in April, the authors will be notified of their place on the conference program. This notice will be accompanied by further guidelines for submission of full text papers, biographical notes, accompanying research data, PowerPoint slides, and required Author Registration.

GreyGuide
Repository and Portal to Good Practices and Resources in Grey Literature

Welcome to the GreyGuide, Your Open Access to Grey Literature Resources *http://greyguide.isti.cnr.it*

10 YEARS ANNIVERSARY

2013
2022

GreyNet International together with the Institute of Information Science and Technologies of the National Research Council of Italy, **ISTI-CNR** mark this year a decade of collaboration in the design, development, and open access of diverse resources in the field of grey literature.

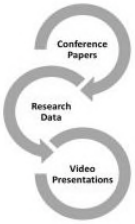
In this capacity, GreyNet acts as content provider and ISTI-CNR as developer and system provider for the GreyGuide Repository registered in OpenDOAR.
Together they have compiled and published the complete collection of conference papers in the GL Conference Series from 1993-2022. Further included are the accompanying abstracts, data papers, and biographical notes of hundreds of authors and researchers, who have contributed to this field of information.

The GreyGuide Portal further extends GreyNet's publication trail by providing open access to conference proceedings, slides, and posters via its **Document Share** section. The GreyGuide Portal further facilitates access to **Repositories** in which GreyNet's conference videos and published research datasets are housed.

GreyNet's Publication Trail via the GreyGuide

GreyGuide Repository				GreyGuide Portal				
Proposals / Abstracts	Biographical Notes	Conference Papers	Data Papers	Conference Proceedings	Conference Slides	Conference Posters	Conference Videos	Published Datasets
GLA Collection	BIO Collection	GLP Collection	RGL Collection	Document Share	Document Share	Document Share	Repositories TIB AV Portal	Repositories DANS EASY Archive

In 2018, five years into this project, the GreyGuide came to include persistent digital identifiers (PIDS) namely the DOI, ORCiD, and ROR ID in its metadata records. This has allowed for the crosslinking of the research data published in the DANS EASY Archive and the video presentations published in the TIB AV-Portal with their accompanying full-text conference papers published in the GreyGuide Repository.



DataCite Commons provides these actionable persistent identifiers with a single search interface and in so doing contributes to the construction of the PID Graph. The PID Graph makes it easier to describe complex use cases and relationships. It opens to new and further research via digital interoperable hyperlinks. And, it is in this way that the GreyGuide has enabled GreyNet to carry out research projects dealing with topics such as leveraging grey literature, policy development, data papers as trusted resources, securing open access, digital persistent identifiers, and digital publishing. In turn, this has qualified GreyNet as a research organization with a curated ROR ID.

GreyNet's new collection of linked, aggregated publications housed in the TIB AV-Portal

GreyNet International relies on a shared workflow that is fully open access compliant. GreyNet partners with the GreyGuide Repository, DANS EASY Data Archive, and the TIB AV-Portal in publishing and preserving its DOI linked collections of conference papers, accompanying datasets, and audiovisual recordings for further citation and reuse:

GreyNet Membership Campaign

Choose your Level of Membership in 2023

GreyNet International thanks its Associate, Institutional, and Individual Members for their continued support. It is through your membership that our host of information products, services, and resources can be sustained, enhanced, designed and developed. GreyNet International likewise takes this opportunity to invite other communities of practice dealing with grey literature to join us in 2023. https://greynet.org/greynetmembership.html

GreyNet International

Grey Literature Network Service

After 30 years of service to communities of practice in the field of grey literature worldwide, GreyNet seeks to secure and sustain its work under new management. Since the relaunch of GreyNet in 2003, TextRelease an independent information bureau registered in the Netherlands powers GreyNet International. Under its leadership and direction, GreyNet has established a professional membership base and partnerships worldwide. It has also developed and sustained a host of information products and services in the expanding field of grey literature. TextRelease, however, now seeks to transfer and/or merge the work of GreyNet to an infrastructure commensurate to its potential growth.
