GreyNet Associate Membership (ASSOC-2012)

Corporate Authorship is conferred on these Members including the benefits of Conference Sponsors.

GreyNet Institutional Membership (INST-2012)

This category of membership includes information products, services, as well as advertising benefits.

GreyNet Individual Membership (INDV-2012)

This category of membership includes information products and services at considerable savings.

Enhanced Publications Project

GreyNet's Enhanced Publications Project (**EPP**) seeks to link underlying research data as well as post-publication data such as commentaries to full-text conference papers currently accessible in the OpenGrey Repository.

GreyNet International Consortia

In advance of its proposed transfer from a sole proprietorship to an International Association, GreyNet actively seeks to formalize bilateral relationships with organizations involved in the field of grey literature, a practice that *de facto* began two decades ago. In 2012, organizations in government, academics, business and industry are invited to sign a Memorandum of Understanding. And, in so doing underscore GreyNet's Mission.
