GL18 Keynote – Taryn L. Rucinski, U.S. Courts Library and Research Center, New York, NY

Professor Rucinski is the former Environmental Law Librarian for the Pace Law Library. She graduated cum laude with her B.A. in history from The College of New Jersey in 1999, cum laude from Pace with her J.D. and certificate in environmental law in 2010, and cum laude with her M.L.I.S. from St. John's University Division of Library and Information Science in 2012. During law school she was the editor in chief for the Pace Environmental Law Review and a semi-finalist for

the Pace Moot Court Competition. As a law student she also interned with Magistrate Judge Lisa Margaret Smith, S.D.N.Y., the New York City Landmarks Preservation Commission, and the Pace Environmental Litigation Clinic. Prior to attending law school, she worked as a state investigator with New Jersey Attorney General's Office. Her recent article 'Towards a Definition of Grey Legal Literature' has been widely acclaimed.

Grey Literature Network Service

Introduction

GreyNet International, Grey Literature Network Service, was founded in 1992 and re-launched in 2003 under the leadership and direction of TextRelease. Since its re-launch, it has developed into an international network capable of serving various sectors of government, academics, business and industry as well as subject based communities producing, processing, distributing, and preserving grey literature. GreyNet's mission is dedicated to research, publication, open access, education, and public awareness to grey literature. This requires now more than ever an infrastructure commensurate to its real potential.

National Technical Library

National Technical Library (hereafter referred to as "NTK") is a central professional library open to public, which offers a unique collection of 250 thousand publications freely accessible in open circulation. Its holdings form the largest collection of Czech and foreign documents from technology and applied natural sciences as well as associated social sciences. It contains a total of 1.2 Mil. volumes of books, journals and newspapers, theses, reports, standards, and trade literature in both printed and electronic forms. Besides its own collection, parts of Central Library of the CTU in Prague and Central Library of the ICT holdings are accessible in NTK.

For detailed information on the National Technical Library visit <http://www.techlib.cz/en/>

As corresponds to its statutes, NTK manages – among others – the project of building the **National Repository of Grey Literature**. The project aims at gathering metadata and possibly full texts of grey documents in the fields of education, science and research. The NTK supports an education in the field of grey literature through annual seminars in the Czech Republic.

For more information on the National Repository of Grey Literature visit our project Web site <http://nrgl.techlib.cz/> and for a search <http://www.nustl.cz/>

About the GreyNet Newsletter

This serial publication endeavors to keep information professionals abreast of developments in the field of grey literature. The quarterly newsletter gives exposure to GreyNet's information resources and frontline activities with special emphasis on the International Conference Series on Grey Literature. The GreyNet Newsletter is licensed by EBSCO Publishing and can also be accessed via the Library, Information Science & Technology Abstracts (LISTA-FT) full-text database. This serial publication is made possible through the support of GreyNet's Associate Members and Corporate Authors: DANS-KNAW (Netherlands), CVTISR (Slovakia), ISTI-CNR, (Italy), Nuclear Information Section, NIS-IAEA (Austria), FEDLINK, Library of Congress (USA), Inist-CNRS (France), New York Academy of Medicine (USA), EBSCO (USA), National Library of Technology (Czech Republic), and the Korea Institute of Science and Technology Information, KISTI.

Grey Literature is a field in library and Information science that deals with the production, distribution, and access to multiple document types produced on all levels of government, academics, business, and organization in electronic and print formats not controlled by commercial publishing i.e. where publishing is not the primary activity of the producing body.
