Global Forum for Publishers
Global Forum for
Publishers in Grey
Literature, at TIB in
June 2026

GreyNet International is focusing this year on capacity building within its organizational reach. In this way, it seeks to improve its ability to effectively sustain and further develop its range of information and data resources. Emphasis will be given to the completion of the Open Data Project ensuring FAIR use for purposes of referencing, citation, and reuse. Two new and expanded editions of the International Directory of Organizations in Grey Literature and the PUBGREY Registry of Publishers in Grey Literature are currently in progress. This year also marks the first ever Global Forum for Publishers in Grey Literature organized by GreyNet and hosted by TIB - Leibniz Information Centre for Science and Technology on June 8-9, 2026 in Hannover, Germany. https://www.greynet.org/images/GreyNet_2_Newsline_2026.pdf
